Forecast for Wednesday 15 Dec 2021

Weather: Lochaber, Argyll and the Trossachs will see rain during the hours of darkness, this becoming heavy for a time. Dry and clearer weather will develop here by the end of the morning followed by a dry and sunny afternoon.
Dull weather with some light rain at times will persist throughout the day across Arran and southern Kintyre. Some patchy light rain will spread into the Trossachs and southern Argyll in the evening.

Chance of cloud free mountain/hill tops above 800m: Little chance in the south. 80% in the north

Visibility: Poor in low cloud down to 500 metres quite widely at first, this steadily becoming confined to the south by the end of the morning. Then very good visibility in the north by afternoon. Low cloud will return northwards in the evening.

Freezing Level*	2100m	1600m	1100m	1100m	1200m	1500m	1800m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Summit gales gradually moderating through the morning. Note the significant drop in freezing level across northern Argyll and Lochaber in the afternoon with a risk of icy surfaces developing. Elsewhere freezing level expected to remain above summit level.

Forecast for Thursday 16 Dec 2021
Weather: A lot of low cloud expected through the day, some light and patchy rain at first. Some brighter spells possible across the more eastern Trossachs, and perhaps the south.

Maximum wind: Southwesterly 20 to 25 mph

Chance of cloud free mountain/hill tops above 800m: 30%, best chance in the east

Visibility: Poor in low cloud down to 500 metres, locally good in any clearer weather in the south and east.

Temperature: **Glens:** Plus 4 rising to 8 Celsius
At 800m: Plus 3 Celsius
Freezing level: Above summits
